

Business Structure & Management

Corporate structure and business management play key roles in the operational effectiveness and success of an enterprise. Our lawyers provide clients with a suite of effective solutions in the area of business restructuring and management. Our work includes assessing compliance of internal procedures with relevant regulations to minimize risk; assisting clients in assessing the effectiveness of their organizational structures; and implementing reorganizations and restructurings so that business activities can be carried out more effectively.

Our team focuses on:

- ▶ The evaluation of existing organizational structures and business activities
- ▶ All forms of corporate reorganization
- ▶ Procedures related to the reorganization and restructuring of business activities
- ▶ Changes of ownership structures
- ▶ Changes of business operations
