

# Insurance

The Vietnamese **insurance** market is seeing considerable growth, as major players in the sector continue to turn their attentions to the jurisdiction.

We are experienced in the insurance sector, handling non-contentious/advisory matters, advising on potential claims, and acting in complex disputes – working collaboratively with in-house counsel as required.

We also support new players in establishing businesses in the sector, including assisting with license applications; and assist foreign insurance enterprises in setting up **representative offices in Vietnam** and in developing their business in this jurisdiction.

Our team focuses on:

- ▶ Assisting with license application processes.
- ▶ Assisting with compliance matters.
- ▶ Handling advisory work, in areas such as life/non-life insurance and compulsory insurance.
- ▶ Reviewing insurance contracts.
- ▶ Acting in insurance-related matters.
